

JAN 16 1948

Major General Philip B. Fleming, USA
Administrator
Federal Works Agency
Washington, D. C.

Dear General Fleming:

I have been advised that the Public Buildings Administration of the Federal Works Agency is presently considering a plan for the construction of additional Government-owned buildings for Federal activities.

It is therefore my desire to request that plans be initiated for the construction of a satisfactory building to house all of the activities of the Central Intelligence Agency. I believe that my request will be supported in view of the fact that the Central Intelligence Agency has now been made a permanent Federal Government Agency by the 80th Congress.

Therefore, I would like to discuss with your representatives a possible future site for such a building and, also, the housing requirements, in order that steps may be taken to prepare preliminary drawings and specifications in accordance with our requirements.

I would appreciate hearing from you as to the feasibility of proceeding with such a plan.

Sincerely yours,

SIGNED

R. H. HILLENKOTTER
Rear Admiral, USN
Director of Central Intelligence
